Gnome Venture: the art journey

Items, places and exploration, from the first placeholders to Hearth Pop (Oct to Nov 2026)

1 SVG placeholders

before 2.2.0

1,434 shape-and-emoji SVGs so every item and villager had something to show.

2 First pixel art

2.2.0, 30 Oct 2026

64x64 item PNGs, portraits, 201 creature miniatures, 180 scenes.

3 Scene overhaul

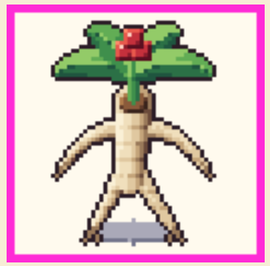

2.2 to 2.5.4x

Stitched-toy scenes: stage backdrops, trek scenes, banners, maps, the underground world.

4 Hearth Pop v3

2.5.48 to 2.5.64

Warm hero-scale look: 1px ink rim, upper-left light, 3 to 5 tone ramps, redrawn weak pictures.

Items

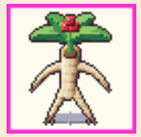

SVG placeholder (where kept), 2.2.0 pixel art, now (2.5.64)

acai

ginseng

tomato

pear

finger-lime

fox-fang

frog-skin

frost-fur

gravel-path

garden-gate-cross

sun-dried-tomatoes

stuffed-peppers-goat

Seeds became seed packets: the 16px seeds all read as blobs, so each is now a paper packet with a window, big seeds and a sprout

Places: then and now

2.2.0 left, 2.5.64 right

stage-grassland

stage-forest

banner-desert

trek-1-camp

Now: turtle nesting beach, Snowcrown Peak, kava circle

Hero-scale places

Village, haven, delve, lair and Maplewold with its new Beaver Pond

Rest-stop looks

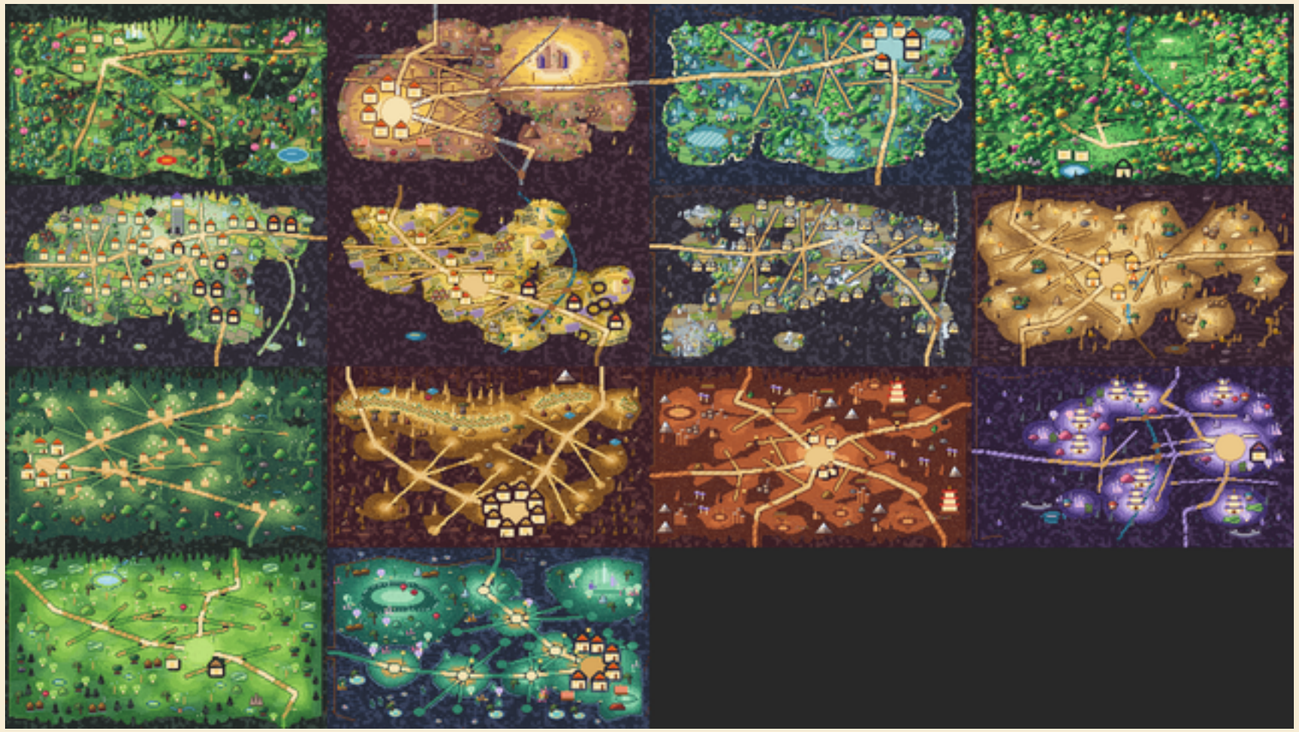

The 11 stop types, each with a desert adobe look

Exploration: the maps

The underground world map (left) and the 14 region maps (right)

Exploration: trek, gather and activities

Trek marker, pickaxe, desert banner, and the four activity kind cards

craft

collect

tend

contest

vig-pick

trek-me x6

banner-desert

By the numbers

Pictures in the game at 2.2.0 (30 Oct) versus 2.5.64

Group	2.2.0	2.5.64
Item and creature pictures (ph, png)	1501	1669
Scene pictures	171	246
Creature miniatures	201	201
2.5D villager sprites	0	81

Built with Aseprite 1.3.18 Lua scripts, one parametric generator per family, and agents drawing in parallel.
